

# Island Ecology In the Bahamas

Terra Science and Education, in partnership with the Gerace Research Center (GRC) is offering a week long in-service workshop for teachers. The workshop is designed to equip teachers with the knowledge and resources they need to lead field studies for their students in the Bahamas.

## WHO CAN APPLY?

Applicants may include teachers or administrators at a K-12 school.

## TRAINING INCLUDES:

- 1- Guide to booking and setting up future trips with Terra
- 2- Training and materials to recruit students
- 3- Guidance and materials to teach an academic program
- 4- Twice daily snorkeling trips to select sites on island
- 5- Cultural experiences

## COST

\$1,000 per teacher which includes:

- 1- Round Trip Airfare from your home airport to San Salvador
- 2- Room and Board while on the island
- 3- Insurance
- 4- Suggested materials to use in recruitment, pre-trip orientation for families and students
- 5- Academic materials to use while on the island
- 6- Certificate of Completion for in-service credit
